Introduction

The TPC-30/32T has a super slim compact design and uses a low voltage processor and heat sink to achieve a unique fanless design. With its NEMA4/P65 front panel it is resilient enough to resist the harsh conditions of any industrial environment. TPC-30/32T provides the Intel XScale PXA270 low voltage processor. With a 320 x 240 resolution and high graph display, it renders image on display clearly. Furthermore, the TPC-30/32T provides multiple standard communication ports allowing connectivity with a variety of peripherals. The TPC-30T also supports Microsoft Windows CE OS let it become an Open HMI solution for system integration.
